

Cargo Hook Mirror

SIMPLEX MODEL 914 Bell 205A-1, 212, 412, 412EP, UH1H, AB412, AB412EP

- FAA STC APPROVAL
- PILOT CONTROLLED MIRROR POSITIONING
- RAPID INSTALLATION AND REMOVAL
- WIDE FIELD OF VIEW - CONVEX MIRROR
- FAA CERTIFIED FOR NORMAL CATEGORY
- COMPATIBLE WITH LOW OR HIGH SKID GEAR
- HORIZONTAL OR VERTICAL MOUNTING OPTIONS
- HEATED MIRROR

Simplex Cargo Hook Mirrors increase helicopter safety by providing a wide field of view during helicopter operations.

Accuracy and confidence are improved during missions such as cargo hook operations, fire fighting, logging, spraying or any other external load operations.

The cargo hook mirror installation allows for infinite angle adjustment. Pilot or co-pilot remote adjustment allows the operator to change the mirror position in flight. With two mirrors installed, left and right mirrors can be adjusted independently.
